**AMENDMENT AND RESPONSE TO OFFICE ACTION  
(NOTICE OF NON-RESPONSIVE AMENDMENT)  
MAILED ON OCTOBER 10, 2006**

In response to the Office Action mailed on October 10, 2006, Applicants amend and remark as follows. In the Office Action, the Examiner stated that the Applicants' previous response was non-responsive for allegedly failing to point out the specific distinctions believed to render the newly presented claims 18-19 patentable over the cited references. On a preliminary note, the Applicants submit that the Applicants' previous response did in fact address the newly presented claims 18-19 on page 16. However, the Applicants hereby present additional reasons to supplement those previously presented in the response filed on June 30, 2006. The discussion of these new claims begins on page 16 of the present response. The Applicants submit that the present response is responsive in accordance with M.P.E.P. § 714.02(b).
